Bambu Lab E1 Air Purifier
Disclaimer and Safety Guidelines

Disclaimer and Warning

Thanks for purchasing a Bambu Lab product. The information in this document affects your safety and your legal rights and responsibilities. Read this entire document carefully to ensure proper configuration before use. Failure to read and follow instructions and warnings in this document may result in serious injury to yourself or others damage to your Bambu Lab product, or damage to other objects in the vicinity. To the fullest extent permitted by applicable laws and regulations, this document and other collateral documents are subject to change at the sole discretion of Bambu Lab.

By using this product, you hereby signify that you have read this disclaimer and warning carefully and that you understand and agree you are solely responsible for your own conduct while using this product, and for any consequences thereof. You hereby agree to use this product only for purposes that are proper and in accordance with all applicable laws, rules and regulations, and all terms, precautions, practices, policies, and guidelines Bambu Lab has made and may make available. To the maximum extent permitted by applicable laws and regulations, Bambu Lab shall not bear any liability for damage, or injury or any legal responsibility incurred directly or indirectly from the improper use of the product. The user shall comply with safe and lawful practices including, but not limited to, those set forth in this document.

Bambu Lab is a trademark of Shenzhen Tuozhu Technology Co., Ltd. and its affiliated companies. Names of products, brands, etc. appearing in this manual are trademarks or registered trademarks of their respective owner companies.

Before You Start

The following documents have been produced to help you safely operate and make full use of your Bambu Lab product:

- Disclaimer and Safety Guidelines
- Quick Start Guide

Check that you have all the included parts. Please review the entire Quick Start Guide before operating the product. Read the Disclaimer and Warning above to understand your legal rights and responsibilities. The latest version of this document is available on the Bambu Lab official website: **https://bambulab.com/support/documentation**. If you have any questions or problems during the installation, maintenance, or use of this product, please contact Bambu Lab or a Bambu Lab authorized dealer.

Safety Guidelines

1) The device must be disconnected from the power supply before carrying out any installation or maintenance work.

2) Installation and maintenance must be carried out by skilled personnel in accordance with the manufacturer's operating instructions and local safety regulations.
3) Do not use multiple plug adapters or power extension cords while the device is energized.
4) Do not switch on the power or touch the device with wet hands, feet, or body, or while barefoot.
5) The device shall be used by personnel with the necessary training, knowledge, or experience.
6) Children must always be accompanied by an adult when using or near the device.
7) Do not touch the inside of the device while it is in operation.
8) Keep fingers, hair, and limbs away from the air inlet and outlet to prevent personal injury or device malfunction.
9) This product is designed solely for indoor use and should be kept in a dry environment. The recommended operating temperature is between 10 °C and 30 °C (50 °F and 86 °F), with a recommended humidity level below 80% RH.
10) Place and operate the device on a clean, stable, and flat surface.
11) Leave 5 cm of clearance in front of the device and 20 cm behind it, and avoid excessive bending of the air duct.
12) Do not use the device in areas filled with oil, flammable gases, or chemical fumes.
13) Do not spray volatile chemicals such as insecticides or air fresheners near the device while it is in operation.
14) Do not use the device near heat sources or open flames. Do not use it in environments containing flammable or explosive gases such as gasoline vapors, alcohol vapors, or natural gas.
15) When used simultaneously with household gas appliances (such as gas stoves or gas water heaters), ensure adequate ventilation to avoid carbon monoxide (CO) poisoning.
16) Combustion of the filter may cause irreversible harm to human health and/or endanger other lives. Do not use the filter as fuel or for similar purposes.
17) The device's Bambu Bus port 6-pin is intended only for connection to Bambu Lab 3D printers and must not be used for any other purpose.

Compliance Information

FCC Compliance Notice

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and

used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

ISED Compliance Notice

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:
(1) This device may not cause interference. (2) This device must accept any interference, including interference that may cause undesired operation of the device.
L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:
1) L'appareil ne doit pas produire de brouillage; 2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
